Job Advert

COVID-19 health protection practitioner

Up to 37 hours per week at Grade 10, initially 1 day per week. SCP 26-28

Shropshire Council’s Public Health Team has vacancies for COVID-19 health protection practitioners. These roles will work within the COVID-19 Shropshire Health Protection Team, providing advice and support for COVID-19 response. These will be on a casual basis of initially 1 day per week. Hours will be flexible up to 37 hours per week.

You will have knowledge and skills to provide professional public health advice on systems health protection, health protection support, outbreak management and Test, Trace and Isolate services. The professional advice will be to colleagues, service, settings and to members of the public.

You will need to be a great organiser with excellent communication skills focused on sharing information and making decisions based on operating procedures and government guidance.

You must possess a good level of education. You must have experience of working independently to protect the health of the population including case, incident and outbreak management and working in a multi-agency environment.

Training and development opportunities will be available to meet identified training needs essential for the post.
